Dear Jeff,

On Behalf of St. Peter's Seminary, I would like to thank HMT Revenue Group for the quality of service recently provided to our organization.

Your auditor provided a very comprehensive review of our Accounts Payable files which in no way interfered with our day to day operations. Having been initially skeptical of any potential findings, we were pleasantly surprised with the additional recoveries that he was able to obtain on our behalf.

The process was exactly as promised; an extremely thorough and non-obtrusive service which delivered significant results to our bottom line. More important than the recovery, it was the knowledge that your auditor brought to our organization.

Also, having free, life-time access to our auditor truly demonstrates HMT's continued commitment to helping our organization find new ways to save money. We are already planning our next review and look forward to continuing this valued relationship.

I would highly recommend HMT Revenue Group to anyone, even if they are not actively seeking tax recovery services, as your auditor had the ability to find hidden taxes we didn't even know were there.

Sincerely,

A handwritten signature in black ink, appearing to read "Ted Sinclair".

Ted Sinclair, CMA
